

K-L.E.D. gives long lasting white light

The K-L.E.D. head light produces a homogeneous light patch of up to 18000 lux.

NEW K-L.E.D. and SuperVu Galilean system

K-L.E.D. and SuperVu Galilean system in charging unit

The 3W L.E.D. is mounted coaxially on the loupe bar and is powered by a lithium battery pack giving 4 hours continuous use. The K-L.E.D. comes with two battery packs and a charging unit that can hold and charge both packs simultaneously, as well as being a convenient container to keep loupes when not in use.

The K-L.E.D. can be retrofitted to all Keeler loupes.

Part Numbers	2004-P-1000	Keeler fit K-L.E.D. head light system c/w 2 batteries
	2004-P-1003	Universal fit K-L.E.D. head light system c/w 2 batteries

Designed for comfort

Choose from the new Keeler frame or a headband mounted system to mount your loupes. Adaptable to all prescriptions.
